

Synovium[®]
HORSE HEALTH

SYNOVIUM[®] AGILITY HORSE

Synovium[®] Agility is an advanced veterinary joint supplement with Bioactive Collagen Peptides (BCP[®]) for maintaining healthy cartilage and flexible joints. The positive effect of Agility[®] on the joints of horses has been demonstrated by placebo-controlled studies. Agility is well accepted by horses and can easily be added through the drinking water or over the feed. Clean label: free from additives and sugars. Agility is easy and effective to dose and also hypoallergenic and 100% free of additives.

Agility is (also) deployable as a precaution, such as:

- With (sports) horses and other horses that work intensively
- For the development of optimum cartilage quality and a healthy skeleton in foals
- To support the joints of older horses.
- For optimum flexibility, by providing constructive bioactive peptides for cartilage, joint fluid and ligaments.

COMPOSITION

Bioactive collagen peptides, neutral taste and smell.

INSTRUCTIONS FOR PROPER USE

Horse and pony: daily 25 grams through the drinking water or over the feed. Start-up dose first week 3 scoops 39 grams per day, followed by maintenance dose of 25 grams per day.
