

Synovium[®]
HORSE HEALTH

SYNOVIUM[®] MGNIUM

Synovium MGNIUM is a daily horse calmer with multiple forms of magnesium, B vitamins and essential fibre. Magnesium plays a very important role in the physiology of the muscle and nerve cells. Magnesium deficiency can manifest itself as nervousness and an inability of the muscle cells to relax. In addition, with a magnesium deficiency, forms of muscle pain can occur, which all lead to performance loss. This can lead to problems such as changing body fat distribution and skin problems. MGNIUM provides proper support for supplementing magnesium in the daily ration. MGNIUM contains a unique and natural formula of various food additives. This product is available at many horse doctors. Mgnium promotes concentration and is used for the care of heavily stressed muscles. Contains 2 forms of magnesium: magnesium chelate and magnesium oxide in combination with B vitamins.

COMPOSITION

Chelated Magnesium Oxide, Soya Bean Extract, Magnesium Oxide, Calcium Carbonate, Lignocellulose
Additives per kg:
Vitamin B1 10 000mg Vitamin B6 10 000mg
