

Synovium[®]
HORSE HEALTH

SYNOVIUM[®] MSM-PURE

MSM-PURE is a natural food supplement for horses that is used as a feed additive for humans and animals. It contains a high content of biologically available sulfur. The horse uses these sulfur atoms in amino acid and protein synthesis. MSM-PURE is used for keeping healthy mainly muscles (muscle metabolism), tendons, ligaments (attachment). Scientific research shows that MSM-PURE has a protective effect on oxidative and inflammation-related injuries during training and competition, this effect is enhanced by the addition of Vit C (Acta Vet Scand. 2008 Nov, 7, Maranon et al). See Synoviums MSM-OPTIMAL C.

COMPOSITION

Feed materials:

Methylsulfonylmethane (MSM) 99.9 g / kg

INSTRUCTIONS FOR PROPER USE

Horse: add 30 grams to the feed daily

Pony: add 15 grams to the feed daily

Foals: add 7,5 - 15 grams to the feed daily

Or as prescribed by your vet.

One scoop contains 30 grams.

WARNING

Keep out of reach of children.

Keep the package tightly closed.

STORAGE

Store dry and below 25°C.

Do not freeze.

QUANTITY

1 kg

ANALYTICAL CONSTITUENTS

Crude protein: <0.3%

Crude fibre: <0.6%

Crude oils and fats: <0.2%

Moisture: 95.6%

Crude ash: <0.04%

COMPULSORY DECLARATION

Sulphur: 34%
